RECENT PROJECTS

News App

- **Technology Stack:** Developed using the MERN stack (MongoDB, Express.js, React, Node.js). **API Integration:** Utilized RESTful APIs to retrieve and dynamically render news content. **Responsive Design:** Implemented a responsive and user-friendly interface.

Movie App

- **Engaging Interface:** Crafted an engaging and visually appealing UI for browsing and reviewing movies. **MERN Stack:** Utilized the MERN stack (MongoDB, Express.js, React, Node.js) for seamless full-stack development. **Dynamic Data Integration:** Implemented RESTful APIs to dynamically fetch and showcase up-to-date movie information.

Water Theme Park

- Designed and developed a website for water theme park, providing information about attractions, ticket and events. **HTML, CSS, JavaScript** and **Bootstrap**.
